

Intranet Connections 3.0 is the next evolution of IC

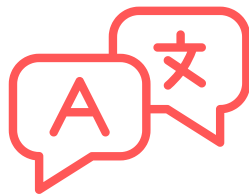

IC 3.0 is a next-generation Intranet Connections platform, rebuilt from the ground up to be mobile-responsive, multilingual, and ultra-intuitive.

Core Improvements

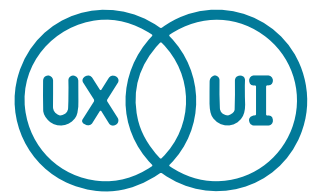

Find and search
SharePoint files
directly in IC 3.0.

On-the-fly
translations; locale
management

Fully Mobile
Responsive, across
all browsers

Modern, card-based,
drag-and-drop
customization

Why Switch?

- Upgraded features and AI tools to help your team get things done
- IC 3.0 is included in Active Maintenance. Get an upgraded intranet at no extra cost
- Automatic data mapping during migration - no need to start from scratch (unless you want to)
